

Fungicidal mixtures for controlling rice pathogens

Abstract

5 Fungicidal mixtures for controlling rice pathogens, comprising, as active components,

1) the triazolopyrimidine derivative of the formula I,

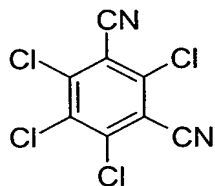

I

and

10

2) chlorothalonil of the formula II

II

15

in a synergistically effective amount, methods for controlling rice pathogens using mix-
tures of the compound I with the compounds II, the use of the compound I with the
compounds II for preparing such mixtures and compositions comprising these mixtures
are described.
